

Are You in the Right Job?

Video #5 – Does it fit What God Wants?

In this video, we reminded ourselves of God's plan for humanity, and how we are to glorify God in all that we do – including our work. Now, we're going to look at our work, to see if that fits with God's plan and how even that might be used to bring glory to Him.

1. Jesus talked about how the Kingdom of God is different from our normal work cultures, and how serving others is so very important (*ref. Matthew 20*). How does the industry in which you work serve others?
Hint: this could be a product (e.g., foodstuffs) or it could be a service (eg., transportation).
2. Does the service provided by your industry help people in a positive way? How? In giving your answer, also try to describe if that service helps bring people closer to God, or if it can also draw them away from God?
3. As you work your job in that industry, how can you glorify God? List 2 or 3 ways that you can do this.
4. Do you feel that you would glorify God better in another industry, or right where you are now? Why?
5. What impact can your job have on how your industry (or your company) serves people? Can you help draw your industry (or your company) closer to what God might desire? How? Or, if not, why not?
6. Do you feel that you might better serve God in another industry? Especially if your industry is providing a service that can distract people away from God, do you feel it is better to leave? Why or why not?
