

# Half-Day Workshop for Executives

---

## Why we offer this workshop

Oftentimes, the senior managers and executives who are members at your church are too busy to plug into the “regular” volunteer opportunities – whether that is serving on / leading a committee, or leading / attending other activities and ministries available in your church.

This workshop is designed to motivate attendees to develop a plan whereby they build in a strong future of Kingdom Work, often starting with leadership participation in a community-building mentor program for younger managers and up-and-coming leaders.

## What is it?

This half-day workshop is a combination of lectures, workshops and group work:

- What makes a good executive?
- What does God expect from me?
- What is your calling?
- What is your plan beyond your job?
- When can you / should you start on that?
- How do you know?

The workshop is based on the Bible so that we first and foremost see what it means to be a Christian business leader from God’s perspective. We then look at the responsibility or applying individual talents and gifts for God’s glory and the building of His Kingdom.

## What is the expected result?

This workshop challenges senior managers and executives in your church to more clearly understand God’s calling on their lives – that it is not just about leading their company to success, but living a life to glorify God, build His Kingdom and help others in doing so.

Specific opportunity is given for these senior leaders to then step out by participating in a leadership/mentor program for more junior businesspeople in your church.

## Costs

Workshop fees for 2018 are \$/€ 500 plus expenses on a stand-alone basis. However, this workshop usually generates enough funds from attendee fees/donations from executive attendees to more than offset costs, and also helps defray costs of any other workshops to be offered at your church.

## ENGAGING EXECUTIVES FOR SERVICE WITHIN YOUR CHURCH

Our objective is to help “too busy” senior managers move beyond just giving & attending at your church to leading & mentoring in ways that help weave together the church business community as they out their faith for the Lord.

## Who is this for?

This workshop is for senior managers, business owners and executives, generally with responsibility for 100+ people – working directly for them, or via a matrix/contract arrangement.

## Who leads the workshop?

The workshop is led by a former global executive, midsize company President, and startup CEO who has transitioned from the full-time workforce to re-emerge as an entrepreneur, ocean sailor and founder of the God & Work ministry, Roland Heersink.

Subsequent mentor programs that may be launched as a result of this workshop are always self-supporting, and therefore require no prior church budget for their execution.

Jan. 2018
